Building on three years of successful delivery, the City and Hackney Neighbourhood's Transformation Programme is delivering place-based integrated health and care across eight Neighbourhood Forums. Resident engagement, community insight gathering, and cross-organisational working within hyper local neighbourhoods underpin the outcomes of this programme.

As a Neighbourhood Facilitator, you will be seconded three days a week from a local grassroots organisation. You will work with resident groups, and services and participate in the Neighbourhood Leadership Group meetings to ensure resident insights and voluntary sector expertise are driving local service and pathway improvements, improving resident outcomes, and addressing health inequalities.

You will facilitate engaging and accessible community forum meetings and take a proactive approach to conducting outreach and forming strategic connections, through participating in health

and care partnership meetings. Creating opportunities for resident experts with lived experience to collaborate alongside VCS organisations to identify local issues and coproduce solutions with health and care partners to influence systems change to reduce health inequalities.
